3-A SSI Releases Revised Sanitary Standard for Uninsulated Tanks, Number 32-04

This 3-A Sanitary Standard applies to the sanitary aspects of uninsulated tanks, both open top and closed types, and both single and multiple compartment types, that are intended to be used for one of the following purposes: mixing of products and ingredients; storage of products in uninsulated tanks intended to be located in a room in which the air surrounding the tank will maintain the product temperature; storage of products in uninsulated tanks having heat exchange surfaces to maintain the product temperature; as a raw product constant level tank in a pasteurizing system; as a product surge or feed tank within a processing system, and farm milk handling equipment.

If you are currently a 3-A Symbol Holder please refer to the 3-A SSI Third Party Verification Manual (TPV) for conformance requirements. To show conformance with 32-04 you must contact a 3-A SSI Certified Conformance Evaluator and request an amendment TPV report.

A copy of 32-04 and other 3-A SSI documents are available at the 3-A SSI eStore http://www.techstreet.com/3a or at www.3-a.org under ‘Standards & Accepted Practices Store’.
