

Status of Active Proposals to Develop New and to Revise Existing 3-A Standards and Accepted Practices

Important Note: All proposals approved for referral to the Working Group are assigned a proposal number. Previously, proposals were given a “T” prefix to indicate that this proposal is “tentative.” New revision proposals drafted in a “B Level” format (normative reference to *3-A Sanitary Standard for General Requirements, 00-*) are assigned a “B” prefix.

April 19, 2021

This chart lists projects the 3-A SSI Working Groups are currently undertaking. It is updated on a routine basis. If a project has more than six months without any activity it is subject to removal from this chart.

Working Group Priorities—the following are the priorities of the Working Groups in developing new and revising existing 3-A Standards and Accepted Practices:

1. 3-A Standards and Accepted Practice “B Level” revision projects formatted with normative reference to *3-A Sanitary Standard for General Requirements, 00-*.
2. Requests for new or revision of existing Standards and Accepted Practices approved by the Steering Committee.
3. Those Standards and Accepted Practices more than five years old, not in the above two categories. (Procedures state that these have to be reviewed for date relevance and revised if determined they are out of date.)

Current List of Standards/Accepted Practices and Their Assigned Work Group

WG	Name	Standards
1	Vessels	01-, *05-, 22-, 24-, 25-, 29-, *32-, *78-, 84-
2	Fillers	*17-, *23-, 27-
3	Fittings & Valves	*33-, *42-, 51-, 52-, 53-, 54-, 55-, 56-, 57-, *58-, 59-, 60-, 62-, *63-, 64-, 65-, 68-, 82-, 85-, 95-
4	Pumps & Mixers	*02-, 04-, 21-, 35-, 36-, 44-, 73-, 87-
5	Heat Exchangers	*11-, 12-, 19-, *31-, *61-
6	Conveyors	39-, 41-, 75-, *81-, *88-
7	Instruments	*28-, *46-, *50-, *74-
8	Concentrating	16-, *26-, 34-, 40-, *45-, 49-, 607, 608-, *610-
9	Farm & Raw Milk	10-, 13-, *30-, *102-, 606-, 611-
10	Cheese & Butter	*38-, *70-, 71-, 72-, *83-
11	Process & Cleaning	101-, 603-, 605-
12	Plant Support	*103-, 604-, 609-, 612-
13	Materials	18-, 20-
14	General Requirements	00-

* Indicates the Standard/Accepted Practice has been converted to “B Level” Format using the General Requirements Standard as the normative reference

Projects By Work Group

General Requirements (formerly the Format & Style Manual) Work Group 14

IMPORTANT NOTE: 3-A Sanitary Standards, Inc. (3-A SSI) has moved to an “A- and B-level” document hierarchy. In January, 2011 the decision was made to discontinue Version 5 of the *Format & Style Manual* and move to developing the “A-Level- General Requirements Standard.”

With an A/B level standards system, the general overall equipment sanitary requirements are contained in a master, or base, “A-level” General Requirements Standard. The technical requirements unique to the specific equipment within the scope of the standard are contained in the “B-level” Standard. (Each specific 3-A SSI equipment Standard has contained both the general and specific requirements before embracing the A- B-level methodology.) The decision was made to adopt this new A/B level format in order to streamline the revision and maintenance process.

3-A SSI developed the “A-level” Standard as an American National Standard to give greater credibility, recognition across multiple industries (ones where such Standards may not be available to further the public health), and to allow others to participate who normally would not be reached.

			The following SC Referred Projects have been recorded:
	B. 3-A 00-01-2018, General Requirements	T-00-01-B General Requirements Gabe Miller, Pi-Fs, LLC: gabe.miller@pi-fs.com	Steering Committee approved referral on June 30, 2017 for amendment to 00-01-2018. Add a definition for “HVOF” to the General Standard 00-. Proposal reviewed at the 2019 Annual Meeting.
	C. 3-A 00-01-2018, General Requirements	T-00-01-C General Requirements Gabe Miller, Pi-Fs, LLC: gabe.miller@pi-fs.com	Steering Committee approved referral on June 30, 2017 for amendment to 00-01-2018. Editorial revision to clause E1.1.3 to correct the grammar. Proposal reviewed at the 2019 Annual Meeting.
	D. 3-A 00-01-2018, General Requirements	T-00-01-D General Requirements Gabe Miller, Pi-Fs, LLC: gabe.miller@pi-fs.com	Steering Committee approved referral on June 30, 2017 for amendment to 00-01-2018. Add definitions for Fluid Products, Viscous Products, and Dry Products. Proposal reviewed at the 2019 Annual Meeting.
	E. 3-A 00-01-2018, General Requirements	T-00-01-E General Requirements Gabe Miller, Pi-Fs, LLC: gabe.miller@pi-fs.com	Steering Committee approved referral on June 30, 2017 for amendment to 00-01-2018. This proposal is to add the words “or gaskets” and reference E8.1.3 in Clause E7.3. Proposal reviewed at the 2019 Annual Meeting.
	F. 3-A 00-01-2018, General Requirements	T-00-01-F General Requirements Gabe Miller, Pi-Fs, LLC: gabe.miller@pi-fs.com	Steering Committee approved referral on June 30, 2017 for amendment to 00-01-2018. This proposal is to reduce the required weld radii for welding of materials 0.080” (2 mm) and thinner. Proposal reviewed at the 2019 Annual Meeting.
	G. 3-A 00-01-2018, General Requirements	T-00-01-G General Requirements Gabe Miller, Pi-Fs, LLC: gabe.miller@pi-fs.com	Steering Committee approved referral on June 30, 2017 for amendment to 00-01-2018. Add further clarification to the use of bonding materials to preclude the use of bonding materials in applications where they are not intended or permitted. Proposal reviewed at the 2019 Annual Meeting.
